QUESTION 22 In this section, you will see one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem, and you must determine whether the solution meets the stated goals. Any of the solutions might solve the problem. It is also possible that none of the solutions solve the problem. Once you answer a question in this section, you will NOT be able to return to it. As a result these questions will not appear in the review screen. Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties. You install a language pack. Does the solution meet the goal? A. Yes B. No Answer: A Explanation: With language pack installation, SharePoint gets Multilingual User Interface which allows users to set the site's language based on their preference and that's the requirement. So the answer should be Yes. QUESTION 23 In this section, you will see one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem, and you must determine whether the solution meets the stated goals. Any of the solutions might solve the problem. It is also possible that none of the solutions solve the problem. Once you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties. You create a term set and Managed Metadata column. Does the solution meet the goal? A. Yes B. No Answer: A Explanation: The requirement is to change the values of metadata field settings from a single location and changes to the settings should be applied to all the site collections and existing documents. So Term Set and Managed Metadata column is the preferred way to implement the Document Status and Department properties. QUESTION 24 Once you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties. You

configure variations on the site. Does the solution meet the goal? A. Yes B. No Answer: A Explanation: With language pack installation, SharePoint gets Multilingual User Interface which allows users to set the site's language based on their preference and that's the requirement. So the answer should be Yes. QUESTION 25 You need to configure SharePoint to support the required common document properties. Which two actions should you perform? Each correct answer presents part of the solution. A. Activate the Metadata Navigation and Filtering feature. B. In each site collection, define content types and site columns. C. Create a site collection. Define content types and site columns. D. Activate the Content Type Syndication Hub feature. E. Create a library. Create columns and save the library as a template. Answer: C D Explanation: The requirement is to manage the field settings from a single place. For that, content type hub should be implemented. QUESTION 26 You need to ensure that employees can access published marketing materials. Which feature should you configure? A. Promoted Links B. Permission levels C. Managed paths D. Durable Links Answer: D QUESTION 27 You need to configure the environment to support the needs of the procurement team. What should you create? A. a display template B. a document library template C. a master page D. a search results page Answer: A Explanation: As per requirements, Search is the key feature for Procurement department. So, a Display Template should be implemented for this department. QUESTION 28 Drag and Drop Question You need to configure the HR site. For each requirement, which action should you perform? To answer, drag the appropriate action to the correct requirement. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
